

## Color the Brain

1. This part of the brain is a lobe found at the front of the brain and controls thinking and creating. \_\_\_\_\_ Color this part of the brain blue.
2. The \_\_\_\_\_ lobe helps us find our way and recognize objects and their uses, and experiences sensations (such as pain, pressure, touch, and temperature). Color this part of the brain green.
3. This part of the brain is a lobe found at the back of the head. It is here that messages from the eyes are interpreted. \_\_\_\_\_ Color this part of the brain red.
4. This lobe is found next to our ears. It helps us hear, plan our speech, and remember. \_\_\_\_\_ Color this yellow.
5. This part of the brain coordinates our physical skills and balance. \_\_\_\_\_ Color this part of the brain orange.
6. This part of the brain connects the rest of the brain to the spinal cord. \_\_\_\_\_ Color this part of the brain purple.

# Brain Notes

Three Parts of the Nervous System:

- 1.
- 2.
- 3.

The part of the brain that controls thinking is \_\_\_\_\_

Spinal Cord: Connects the \_\_\_\_\_ to the \_\_\_\_\_  
 \_\_\_\_\_ send and receive information throughout your body

Neurons have specialized extensions called \_\_\_\_\_ and \_\_\_\_\_.

\_\_\_\_\_ : bring information to the cell body

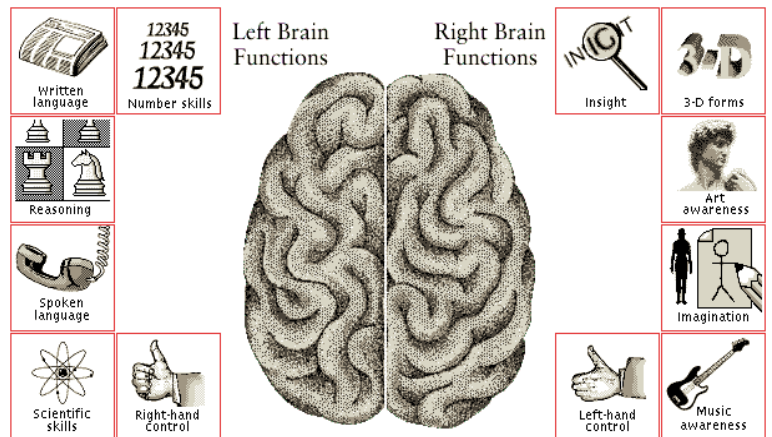

\_\_\_\_\_ : take information away from the cell body

### Brain Sizes- Smallest to Largest

1. \_\_\_\_\_  
actual weight \_\_\_\_\_
2. \_\_\_\_\_  
actual weight \_\_\_\_\_
3. \_\_\_\_\_  
actual weight \_\_\_\_\_
4. \_\_\_\_\_  
actual weight \_\_\_\_\_
5. \_\_\_\_\_  
actual weight \_\_\_\_\_

### Right Brain, Left Brain

|---|--|

1. This part of the brain is a lobe found at the front of the brain and controls thinking and creating. Frontal Lobe Color this part of the brain blue.
2. The Parietal Lobe lobe helps us find our way and recognize objects and their uses, and experiences sensations (such as pain, pressure, touch, and temperature). Color this part of the brain green.
3. This part of the brain is a lobe found at the back of the head. It is here that messages from the eyes are interpreted. Occipital Lobe Color this part of the brain red.
4. This lobe is found next to our ears. It helps us hear, plan our speech, and remember. Temporal Lobe Color this yellow.
5. This part of the brain coordinates our physical skills and balance. Cerebellum Color this part of the brain orange.
6. This part of the brain connects the rest of the brain to the spinal cord. Brainstem Color this part of the brain purple.

## Brain Notes

Three Parts of the Nervous System:

1. **Brain**
2. **Spinal Cord**
3. **Nerves**

The part of the brain that controls thinking is cerebrum

Spinal Cord: Connects the brain to the spine

Neurons send and receive information throughout your body

Neurons have specialized extensions called dendrites and axons.

Dendrites: bring information to the cell body

Axons: take information away from the cell body
